HOW TO USE THIS GUIDE

Read sections 01-03 to absorb the brand. Work mostly from **08** (social) and **09** (decks), they carry ready-to-extend templates. Pull exact assets from **12**. Route all copy through review (**11**) before publishing.

One company, one accent, one *unmistakable voice*

CipheX is capital-markets infrastructure for the tokenized economy, bridging traditional finance and digital assets. The ecosystem is pre-commercial, with target timelines in 2026-2027.

PERSONALITY · THREE WORDS

Institutional

This team has built real markets infrastructure. Capital at scale deserves seriousness.

Precise

Operating language, execution, allocation, origination. Numbers stated plainly, with qualification.

Forward

Actively deploying, not vaporware. Momentum communicated through craft, not hype.

THE ECOSYSTEM · THREE PRODUCTS, ONE PARENT

CPX · ERC-20 TOKEN

Ecosystem & utility token, access, incentives, liquidity coordination, network alignment.

CipheX Alpha · EXECUTION

Autonomous execution & portfolio management via the Abigail system. Non-custodial.

Atlas · RWA

Real-world asset origination, tokenization & global distribution for growth companies.

Cipherion · PARENT

The infrastructure brand credited beneath the ecosystem.

Write like an operator, not a *crypto promoter*

Confident and factual. Lead with operating language, execution, allocation, origination, distribution. Warmth comes from craft and clarity, never cheerfulness or urgency.

FIVE PRINCIPLES

01 Lead with operating language

Verbs of the business, execute, allocate, originate, distribute.
Never speculative crypto jargon.

02 State numbers plainly, and qualify them

Figures and timelines stated factually, always framed as pre-commercial / targets.

03 Never imply guarantees or advice

No returns, no “moon,” no FOMO. Nothing that reads as financial advice.

04 Warmth from craft, not exclamation

Confidence, gravity, momentum, carried by precise language and clean layout.

05 Product names are fixed

CPX, CipheX Alpha, Atlas, Cipherion, Abigail, Abacus, don’t paraphrase or abbreviate.

CAPTIONS · WRITE THIS, NOT THAT

× OFF-BRAND

“🚀 CPX is about to EXPLODE, get in before it moons! Guaranteed gains 🔥”

✓ ON-BRAND

CPX coordinates liquidity and access across the CipheX ecosystem. Pre-commercial; targets 2026-2027.

× OFF-BRAND

“Our AI bot prints money 24/7 while you sleep 💎”

✓ ON-BRAND

CipheX Alpha runs autonomous execution through the Abigail system, your capital, working 24/7, non-custodial.

× OFF-BRAND

“The future of finance is HERE. Don’t miss out!!!!”

✓ ON-BRAND

Atlas originates, tokenizes, and distributes real-world assets for mid-stage growth companies.

Every caption, claim, figure, and product statement must clear compliance review before publishing, see section 11.

Warm cream, one committed *institutional blue*

The ground is warm cream, never pure white, never pure black. A single accent does the heavy lifting. Everything else is ink and warm neutrals. Do not introduce new hues. Print values are CMYK approximations, proof before press.

CORE · GROUNDS, PANELS & INK

Cream Ground #fbfaf6 251 250 246 0·0·2·2	Surface Panel #f0ede4 240 237 228 0·1·5·6	Sand Panel #e8e2d6 232 226 214 0·3·8·9	Ink Primary #1c1e24 28 30 36 22·16·0·86	Ink Body #3a3528 58 53 40 0·8·31·77	Ink Muted #6b6552 107 101 82 0·6·23·58	Ink Subtle #756f5e 117 111 94 0·5·20·54
--	---	--	---	---	--	---

BRAND ACCENT · INSTITUTIONAL BLUE

Primary Blue #0050d6 0 80 214 C100 M63 Y0 K16 Links · CTAs · highlights	Deep Blue #003fa8 0 63 168 Hover · badges	Soft Blue #5b9dff 91 157 255 Headings on dark	Glow Blue #4d8fff 77 143 255 Focus on dark
--	---	---	--

One accent, used decisively. Blue marks the things that matter, a link, a metric, the italic phrase in a headline. If everything is blue, nothing is. Aim for one or two blue moments per layout.

BORDERS & CHROME

Warm #d8d2c0	Light #ece6d4	Muted #bdb59b
------------------------------------	-------------------------------------	-------------------------------------

ACCESSIBLE PAIRINGS

Ink on Cream	AAA · 15.8:1
Blue on Cream	AA · 6.4:1
Cream on Ink	AAA · 16.9:1
Soft Blue on Ink	AA · 7.1:1
Soft Blue on Cream	Fails, avoid

On dark, cream at *descending opacity*

Dark layouts use near-black grounds with a cool, deep-navy bias. Text is always the cream #fbfaf6 stepped down in opacity, never grey, never an off-hue.

DARK GROUNDS

Hero
#0a0c10

Panel
#0c0e13

Product Hero
#0d0f14

Navy Bridge
#060d1e

Deepest
#04080f

CREAM TEXT OPACITY RAMP

Primary, 92%	headlines
Body, 72%	paragraphs
Muted, 55%	secondary
Subtle, 45%	meta · captions

STATUS PALETTE · USE ONLY FOR ITS MEANING

Amber / Gold #d29922	Active · “Preparing Access”
Notice Gold #836a1c	Legal / important notices
Success Green #3fb950	Complete · positive delta
Danger Red #c0392b	Errors · negative delta
Chart Teal #00a67e	Data-viz / taxonomy only
Eng. Violet #5b2be2	Data-viz / taxonomy only

Status colors are functional, not decorative. Never use red/green/violet as brand accents, that job belongs to blue alone.

Three voices, one *deliberate system*

Each typeface has a job. Geist is the digital voice, Merriweather the traditional-finance voice, Geist Mono the terminal voice. They never compete, they take turns.

Aa

GEIST · 100-900 VARIABLE

Geist - the digital voice

Body copy, UI labels, and the sans lead-in of every headline. Display headings use weight 600, letter-spacing -0.03em, line-height ~1.05-1.1.

300 400 500 600 700 800

Aa

MERRIWEATHER · REGULAR + ITALIC

Merriweather - the traditional-finance voice

Used *only* for three things: the italic emphasis phrase inside a headline, editorial/article titles, and large stat figures in a quarterly-report register.

the operating layer · \$23.8M · 2026-2027

Aa

GEIST MONO · VARIABLE

Geist Mono - the terminal voice

Eyebrows / kickers, tags, data labels, dates, and meta. Always uppercase, letter-spacing ~0.14em, small (9-11px on web).

PREPARING ACCESS · Q3 2026 · CPX/USD

The mixed-typeface headline is our *signature*

The single most recognizable element of the brand: a Geist sans lead-in with one Merriweather italic phrase that lands the thesis, colored in the section accent. Build every narrative headline this way.

THE RECIPE

One Capital Ecosystem, Shaping the *Future of Personal Investing Worldwide*

01 · LEAD-IN

Geist sans, weight 600, -0.03em. The factual setup.

02 · ACCENT PHRASE

Merriweather italic, regular weight. The brand payoff.

03 · ACCENT COLOR

Blue on light, soft blue on dark. One phrase only.

MORE SPECIMENS

The Path from Development to *Commercial Deployment*

Insights from the *Operating Layer*

Real-World Assets, *Brought On-Chain*

VENDOR FALLBACKS (UNLICENSED)

Geist → Helvetica Neue, Arial · **Merriweather** → Georgia, “Times New Roman” · **Geist Mono** → SF Mono, Consolas, monospace

RIGHT VS WRONG

✓ RIGHT, ONE SANS LEAD-IN, ONE BLUE ITALIC PHRASE

Built for the *tokenized economy*

× WRONG, ALL ITALIC SERIF, NO ANCHOR

Built for the tokenized economy

× WRONG, ACCENT PHRASE NOT COLORED

Built for the *tokenized economy*

× WRONG, TWO ITALIC PHRASES DILUTE IT

Built for the *tokenized economy*

One family of *marks*

The master CipheX wordmark leads. The X-monogram is the standalone avatar. Each product carries its own square mark, use it only inside that product’s context.

MASTER WORDMARK · PRIMARY & REVERSED

PRIMARY · INK ON CREAM

REVERSED · CREAM ON DARK (primary active form)

X-MONOGRAM · AVATAR

Two interlocking, slightly elongated diamonds inside a circle. The standalone device for social profile pictures, app icons, and favicons.

PRODUCT MARKS · USE IN-CONTEXT ONLY

CPX token mark
Tokenomics, listings, exchange & liquidity contexts.

CipheX Alpha mark
Alpha product surfaces & the Abigail system only.

Atlas mark
RWA origination & distribution contexts only.

Cipherion mark
Parent endorsement, corporate & legal footers.

Protect the mark, give it *room and respect*

CLEAR SPACE · 1× THE MARK HEIGHT ON ALL SIDES

1X

1X

Keep the surrounding margin clear of type, other logos, and graphics. “X” = the height of the wordmark’s cap / monogram.

MINIMUM SIZES

Wordmark

96px digital · 25mm print

X-monogram

24px digital · 8mm print

Below these sizes, switch from the wordmark to the X-monogram for legibility.

MISUSE · NEVER DO THESE

× DON'T RECOLOR

× DON'T STRETCH

× DON'T ADD EFFECTS

× DON'T ROTATE

× DON'T USE BUSY GROUNDS

× DON'T REBUILD IN TYPE

Co-branding & parent endorsement. When pairing with a partner or crediting the parent, separate marks with a 1px divider and equal optical weight. CIPHERION sits as the quiet endorsement, never larger than the lead mark.

What makes a layout *feel CipheX*

SIGNATURE BRAND IMAGE

The deconstructed CPX token

An exploded, blueprint render of the token. The brand's hero device: lead with it on covers, section dividers, and full-bleed panels.

WHAT ACTUALLY CARRIES THE BRAND

The mixed-typeface *headline*

Geist sans plus one blue Merriweather italic phrase. The single most recognizable element (section 04).

One blue accent

Warm cream ground, a single committed blue. One or two blue moments per layout.

Flat at rest

Surfaces defined by warm borders and ground color, not shadows.

✓ BORDERED

✗ SHADOWED

RADII

4 · 8 · 12 · 14 · 999 · 50%

SECONDARY PATTERN

Dot-grid texture: supporting, never the point

A quiet radial-dot grid (≈28px pitch) for backgrounds and full-bleed panels. Light `rgba(28,30,36,.06)`, dark `rgba(255,255,255,.04)`. Use it to add depth behind the real signals, not as the identity itself.

Geometry and data, *never stock crypto*

The brand is abstract and typographic. Express it through geometry, structured data-viz, and the token device, not photography. These are direction recommendations; the brand owner can refine.

AVOID · CRYPTO CLICHÉS

- ✕ Gold coins & bullion
- ✕ Hooded “hacker” figures
- ✕ Glowing circuit boards
- ✕ Neon cyber cities
- ✕ Rocket / “to the moon”
- ✕ Glassmorphism decoration

FAVOR · SIX EXAMPLE TREATMENTS

DECONSTRUCTED TOKEN

ALLOCATION DATA-VIZ

ABSTRACT GEOMETRY

CREAM-ON-NAVY

BLUE FIELD

STRUCTURED CHARTS

When a real photograph is unavoidable, choose restrained architectural or financial-gravity imagery, clean lines, natural light, no neon. Drop a placeholder and route the selection through brand review.

Built to *travel the feed*

AVATAR · THE X-MONOGRAM

APP ICON SOCIAL · CIRCLE

Always the monogram alone, never the full wordmark, at profile sizes. It already crops cleanly to a circle.

Capital markets infrastructure for the *tokenized economy*

BANNER / HEADER, wordmark left, token device right, dot-grid ground

— OPERATING NOTE

Execution that runs *around the clock*

CipheX Alpha deploys through the Abigail system, non-custodial, pre-commercial.

CPX · Q3 2026

POST ANATOMY · REUSABLE COMPONENT GRID

- A Mono kicker + rule**
Uppercase Geist Mono, 0.14em, with a short rule. Names the post type.
- B Mixed-typeface headline**
Geist 600 sans + one Merriweather italic phrase in accent. The hook.
- C One supporting line**
Plain, qualified. Never more than two sentences on-canvas.
- D Wordmark + meta ticker**
Wordmark bottom-left, mono meta (ticker · date · stage) bottom-right.
- E Dot-grid ground + 48px margin**
Generous safe margin; text never closer than 8-10% to the edge.

Six templates, *one coherent feed*

TEAM

09 · TEAM

Controlled, weighty, *never bouncy*

Even static posts and decks should inherit the web experience's restraint. Premium choreography, slow and deliberate. Everything degrades gracefully and respects reduced-motion.

Line-by-line reveals

Headlines wipe in by line via clip-path. The setup lands before the italic phrase.

Cards rise from depth

Slight rotateX + scale as panels settle into place. Subtle, not theatrical.

Animated counters

Figures count up once on enter. Stop at the qualified number, never loop.

2px blue progress line

A thin scroll-progress rule in primary blue. Magnetic buttons; low-opacity cursor glow.

EASING

power3 / power4.out
entrances & scroll

elastic.out
snap-backs only

Durations 0.6-1.2s for reveals; stagger 60-100ms. Slower than feels natural, that's the gravity.

DO & DON'T

- ✓ Smooth scroll (Lenis-style), one motion at a time
- ✓ Weighty ease-out, generous duration
- ✗ Bounce, spin, confetti, parallax overload
- ✗ Looping or auto-playing attention grabs

Reduced motion. Honor `prefers-reduced-motion`, replace reveals with simple fades; disable cursor glow and counters.

Nothing goes live *unreviewed*

REQUIRED OF EVERY VENDOR

CipheX is a pre-commercial, regulated financial ecosystem. Route **all copy, claims, figures, and product statements through CipheX compliance review before publishing.**

01

Review before publishing

No post, slide, or asset goes live unreviewed. Submit copy and visuals together, with enough lead time for a pass.

02

No guarantees or advice

Never imply returns or give financial advice. Keep every performance and timeline figure framed as pre-commercial / targets, exactly as provided.

03

Names are fixed

Treat product names and the Abigail / Abacus system names as fixed. Don't paraphrase product descriptions.
